## **DETAILED ACTION**

### ***Remarks***

1. In view of amendments and Applicant's arguments, the Examiner withdraws the objection to the drawings and the rejection under 35 U.S.C 112, second paragraph, to claims 13,15,28,37 and 38. Therefore, all the claims are in a condition for allowance.

### ***Allowable Subject Matter***

2. Claims 1-43 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not show a brushless vibration motor with the combination as follows: a base plate unit having a burring element extended from the base plate, and including a shaft having a first portion inserted into the burring element to be fixedly coupled to the base plate; a stator having one or more coils disposed on the base plate through which current flows; a rotor rotatably supported by a second portion of the shaft, and comprises:

a bearing slidably inserted around the second portion of the shaft,

a bearing holder having an inside surface forcibly coupled to the bearing, and

a yoke coupled to the bearing holder and having a magnet mounted on the yoke to be spaced-apart from the coils to generate a rotation electromagnetic force with the coils, and a counterweight generating eccentricity, and

a cover coupled to the base plate to enclose the stator and the rotor.

### ***Conclusion***
